Clinical Rotation Enrollment

# Why OASIS for Clinical Rotation Schedules?

- **OASIS became the System of Record for Clinical 4<sup>th</sup> Year Rotations.**
- **Best fit to efficiently update students' schedules.**
- **Built to handle Health Science and Clinical Scheduling.**

**OASIS handles student schedules well, but out of the box tools do not handle multiple user roles.**

# Pandemic Tested: Complete Clinical Rotation Reschedule

With the pandemic, the veterinary school went through a complete schedule revision:

- Rotation weeks were shortened.
- All rotations went online for 6-8 weeks.
- Once clinics reopened, rotation weeks continued to vary and change.

**With OASIS as the single scheduling solution, the Clinical Rotation Course Evaluations required no additional support.**
