

# Factors Influencing Feedback & Engagement

Faculty & Student  
Perspectives

How has the shift to remote course delivery impacted response rates for formal student evaluations?

# Institutional Response Rates

**Winter 2019**

In-Person

**38.2%**

**Winter 2020**

In-Person +  
Remote

**22.1%**

**Winter 2021**

Fully Remote

**24.1%**

→ + Shift from “summative” to “formative”

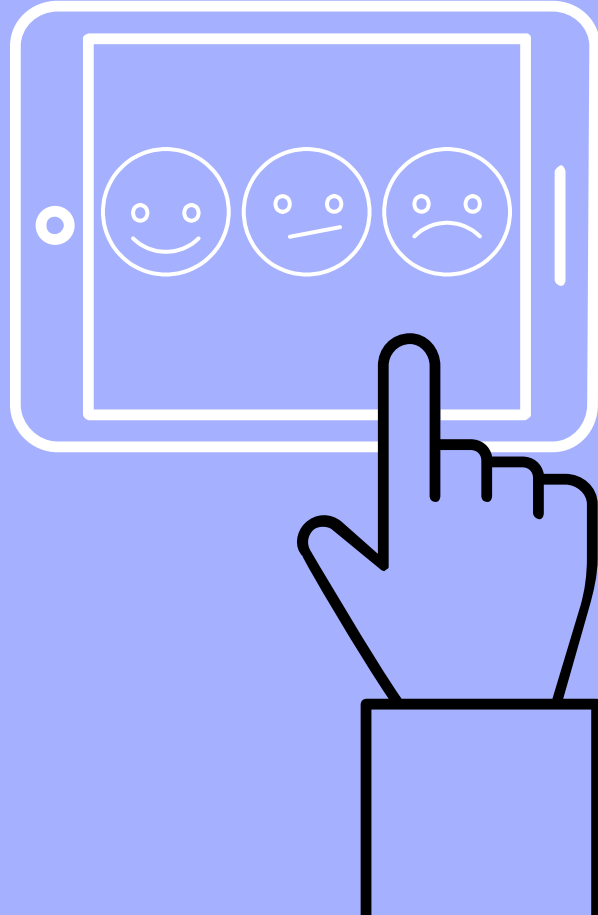

# Questions

- ▶ Have instructors changed how they're soliciting feedback?

How  
are  
things  
going?

# Questions

- ▶ Have instructors changed how they're soliciting feedback?
- ▶ How does (online) engagement impact response rates and student perception?

# Focus Group

Value, Use, & Solicitation of Evals

# Faculty Survey

Engagement & Eval Solicitation

# Student Survey

Eval Participation & Perception

# Focus Group

# Focus Group

- ▶ N=4 (ECON, CHEM, PSYO)
- ▶ Informal, formative feedback
  - ▶ Solicited by all, in-person and online (not new)
- ▶ Methods for soliciting feedback:
  - ▶ Email, Announcements (LMS), Incentives, Describing value

# Focus Group

- ▶ Value all forms of feedback, but benefits to informal:
  - ▶ Mid-stream adjustments
  - ▶ Full control over questions
  - ▶ Course-related
- ▶ All had high online engagement
  - ▶ Regular, live check-ins
  - ▶ Recorded videos
  - ▶ Announcements, emails, etc.
- ▶ All forgot to advertise

# Focus Group

- ▶ Response rates mirrored institutional response rates
  - ▶ Winter 2019: Approx. 40%
  - ▶ Winter 2020: Approx. 19%
  - ▶ Winter 2021: Approx. 21%

# SAMPLING BIAS

" WE RECEIVED 500 RESPONSES AND FOUND THAT PEOPLE LOVE RESPONDING TO SURVEYS "

sketchplanations

# Faculty Survey

# Faculty Survey

- ▶ Engagement survey n=34
- ▶ SRI survey n=25
- ▶ Majority lecture course instructors

# Faculty Survey

- ▶ 92% encouraged formal student feedback (in-person & online)
- ▶ 87.5% solicited and used informal feedback (in-person & online)
- ▶ Methods for soliciting informal feedback:
  - ▶ LMS polls
  - ▶ Anonymous external platforms
  - ▶ Weekly questionnaires

# Student Survey

# Student Survey

- ▶ N=87
- ▶ Majority in STEM
- ▶ Student for:
  - ▶ 2 yrs: 23
  - ▶ 3 yrs: 21
  - ▶ 4 yrs: 13
  - ▶ 5+: 30

# Student Survey

- ▶ Asked for informal feedback:
  - ▶ 27.5% in-person
  - ▶ 38% online
- ▶ Almost all students who provided informal feedback, also completed formal evaluations

What might be  
underlying  
cause of decline  
in response  
rates?

# What do you think?

Which approach for soliciting student evaluations of teaching do you think is most effective during **in-person** learning?

# What do you think?

1. Explaining their impact on course
2. Reminders posted to LMS
3. Dedicated time for completion
4. Email reminders
5. Incentives for completion (e.g., bonus points)

# Response Rates: F2F

# What do you think?

Which approach for soliciting student evaluations of teaching do you think is most effective during **online** learning?

# What do you think?

1. Explaining their impact on course
2. Reminders posted to LMS
3. Listed as outcome in course module
4. Email reminders
5. Incentives for completion (e.g., bonus points)

# Response Rates: Online

“

*Education is a constantly evolving process, and this feedback can help further better course structure and design*

# Engagement

# Engagement?

- ▶ Relationship between specific online engagement strategies and response rates?
- ▶ Are instructors who are 'more engaged' online, more likely to solicit informal feedback?

Provide dedicated time  
and direct reminders  
for students to  
complete evaluations

# Looking Ahead

- ▶ Return to in-person + lots of online
- ▶ Online engagement
  - ▶ Poll early, during regular term
  - ▶ Compare engagement elements in course space

# THANKS!
