

## QR Codes in Blue

**Shared by:** Lorna Robertson, University of Strathclyde

**Date:** Sep. 29, 2021

### **Requirements:**

Customer must be running Blue 8, have a Subscription license and be hosted by Explorance

### **To give Faculty staff the option of showing a QR code to their students in class via Subject Management**

- Enable 'Require Authentication'<sup>1</sup>  
(Tasks → Task Configuration → Advanced Options → Authentication)

**Advanced options** [Hide](#)

**Access and synchronization**

- Allow rater to modify their responses after submitting
- Limit fillout window to specific days and times
- Apply updated task dates to all open tasks

**Changing the dates for open tasks is done automa**

**Start conditions**

- Rater selection
- Rater selection signing
- Question personalization
- Question personalization signing

**Authentication**

- Require authentication
  - Include sign out link
  - Enable self-enrollment
    - Display demographics in Course list
- Exclude Course where

Subject field ▾

- Click Apply

In Subject Management, the Module Leader will now have the option to 'Show QR code' via the 'More Options' button on the module \*\*\*Screen shot needed\*\*\*

---

<sup>1</sup> By setting up the project so that it requires full authentication, students will still need to log-in to Blue once they have scanned the QR code.

### ***To view a QR code at Task level***

- Go to published project
- Select Project Links
- Click 'View QR Code'
- The resultant code can be used by students to log-in to Blue – they will then see a task list for all the surveys they are still to complete

#### **With authentication**
