# Student at centre of the module evaluation process

Closing the feedback loop is mandatory

Student reports show the reflections from teaching staff along with a summary of results

No free text comments are shared but thanks included as acknowledgement

Final module report includes comments for easy reference to aid wider evaluation and enhancement activities

## Reflections from Teaching Staff

Module Name: Student Module Evaluation Demo

1. Thank you for taking time to complete the module evaluation questionnaire.

The majority of comments on this module were positive and I am pleased that there is enthusiasm for the subject. I will continue to post solutions to tutorial questions on Myplace at the end of each week as these are clearly well used. A small number of students reported that they are unhappy with their project allocation, therefore I will hold a short session on Friday 29th November 2019 during the last 10 minutes of class to offer information on alternative projects that can be selected should anyone wish to change. Based on student comments about preparation for the exam, I will use the final lecture slot for working through past papers and an open question and answer session if required.

## Module Questions

### Learning and Teaching

# Challenges

# Consultation

Staff and student input into policy development  
Academic representation on Project Board  
Ongoing feedback throughout project  
Consultation group post project to maintain engagement

## Activating module evaluation

**Quick Settings**

Module Evaluation: ☐ No ☐ Yes

Class Open: ☐ No ☐ Yes

Guest Access: ☐ No ☐ Yes

Class Rollover Action: ☒ Roll over

Enrolment Methods: ☐ View Enrolments

Gradebook Settings: ☐ What does this mean?

Upon logging into the Myplace class site, a Module Evaluation toggle will appear in the Quick Settings bar

Preferences can be selected at a later date by clicking the link to set up

Slide the toggle to Yes and an additional link will appear to allow preferences to be set.

When Module Evaluation is first toggled on, the settings screen pops up automatically.

**Important!**  
If no evaluation window is selected, the module evaluation will not run.  
It is recommended that preferences are set when module evaluation is activated.

## Setting module timing

**Module Evaluation Settings**

Module Timing:

Survey at:

Survey Period:

Mid Semester Term Evaluation: From start of  Until end of  Mid-Survey Type:

End-Summer Term Evaluation: From start of  Until end of

From the drop-down, select whether the module runs in Semester 1, Semester 2 or Both Semesters. Alternatively, select the Summer Term for modules running over the summer months.

Next, select when the module evaluations should take place; this will determine the Survey Period dates below.  
*Note: the module evaluation timings may be different to the timings of your module e.g. Mid Semester evaluation window might be the end of a short module*

## Monitoring Response Rates

Demo of Module Evaluation Semester 1 2019-20 for Student Module Evaluation Demo

Medium Online

Timing Scheduled

- Start Date 2019-10-29 00:00
- End Date 2019-11-12 23:59

Start and end dates for the module evaluation survey window (as set in Myplace Quick Settings)

Refresh the response rates by clicking the arrow button on the right hand side

Response Rate

	Responded	Invited	% Rate
Students	6	35	17.14%

Once the module evaluation survey has closed, the response rates no longer appear in the task list.  
To extend the evaluation survey window contact [modules@surveys.strath.ac.uk](mailto:modules@surveys.strath.ac.uk).

## Selecting Questions

### Addition & Removal of A Question From Selection

**Assessment & Feedback**

Preview The criteria used for marking assessments have been made clear in advance

Preview Feedback on my work so far has been timely (within 15 working days)

Select Deselect

Select Deselect

Press select to add question.

Press deselect to remove question

The preview button beside each question shows how it will be displayed in the survey

Selected questions will appear in green text.

### Preview of Questionnaire

### Question Personalisation (Demo)

A preview of questionnaire with the additional question(s) selected is available by selecting Preview at the top of the list.

### Demo- Feedback Loop Module Evaluations

**Module Leader Feedback Response**

Please provide a short response which outlines your thoughts and reflections on the evaluation of this module. Best practice would be to also include a summary and/or reflections on the key themes emerging from the free text comments your students provided. You may also wish to include the following:

1. "Quick wins" e.g. things that you can change for the rest of the Semester or implement for next term
2. Areas for future development
3. Things to stop, start and continue to do

[Previous](#) [Next](#) [Save](#) [Submit](#)

## CLOSING THE FEEDBACK LOOP: EXAMPLES

### Reflections From Teaching Staff

Every year we address the issues and concerns of students about the purpose of the large group. We will continue to do this and we will change the initial session when the purpose of it is introduced. We will note that it is an opportunity to relate to each other with dignity and respect using the core conditions of the person-centred counsellor in training. Where this is not upheld the tutors will have a more active role to minimise any harm to students. That will be good practice and hopefully ensure a better experience of the group for students. I was pleased that the small PPD groups were viewed positively and we will be having more of these next year.

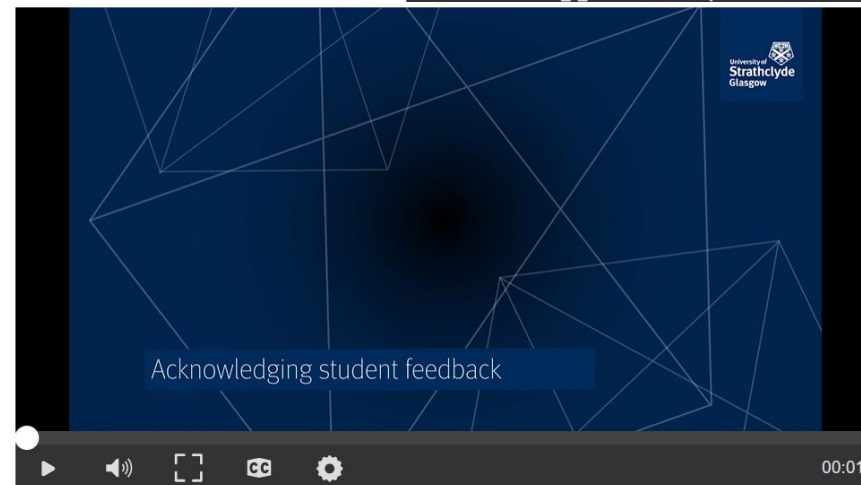

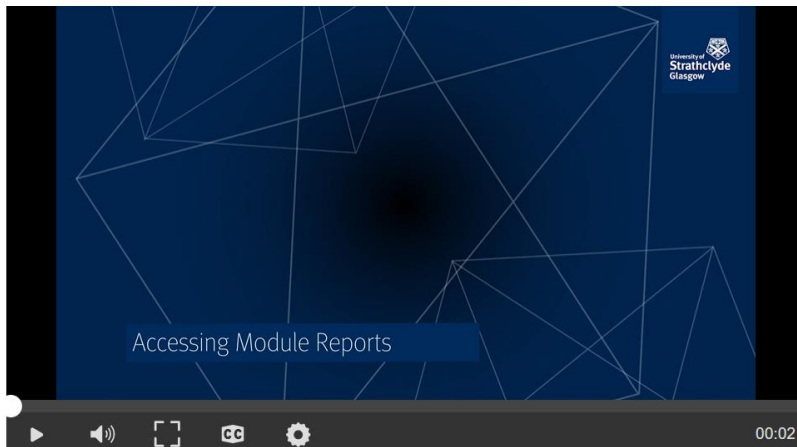

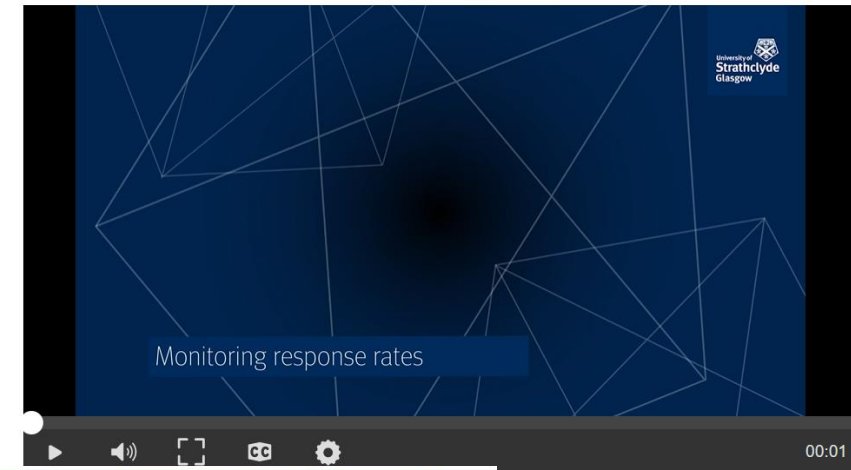

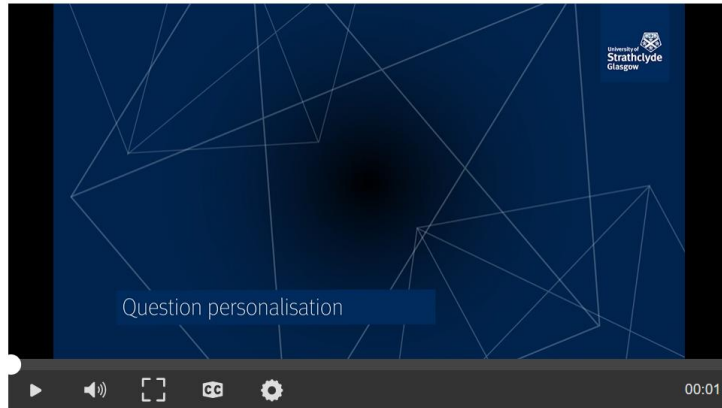

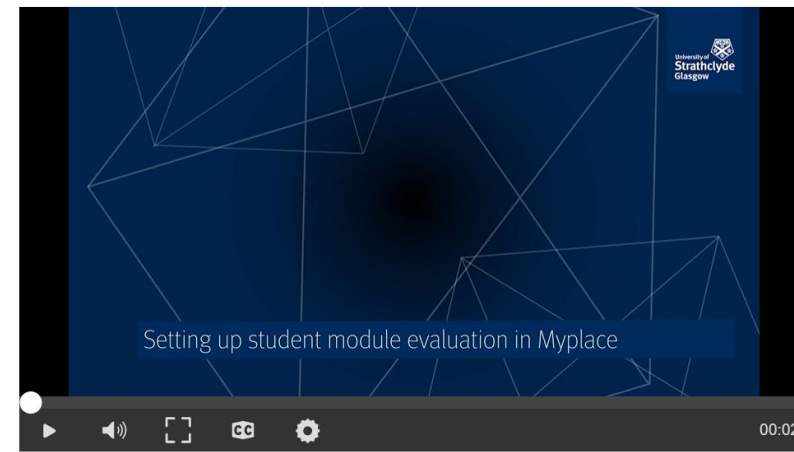

### Reflections From Teaching Staff

I was pleased with the responses to this class. Most people learned a lot. We will consider moving some of the content to enable students to practice the topics while they are training and get supported feedback about their performance.

I was delighted to hear the finding employment input was so well received. This will continue and hopefully have some of this year's students come back to speak next year. We plan to add more employers to the list of speakers and add in time to practice interviewing skills with a demonstration by tutors.

# Micro-CPD

Academic Year 2021-22 sees the full adoption of our institution-wide approach to Student Module Evaluation. This activity supports the Strathclyde student experience and helps to ensure we continue to capture and benefit from our students' feedback as a vital insight into our learning and teaching planning and enhancement activities.

This video provides a brief overview of how the systems works along with some views from academic staff and students who participated in the phased implementation project.

For further resources and tutorial videos on module evaluation, visit [Student Module Evaluation – Staff Information](#) on Myplace and our [Student Module Evaluation Policy](#).

# Micro-CPD

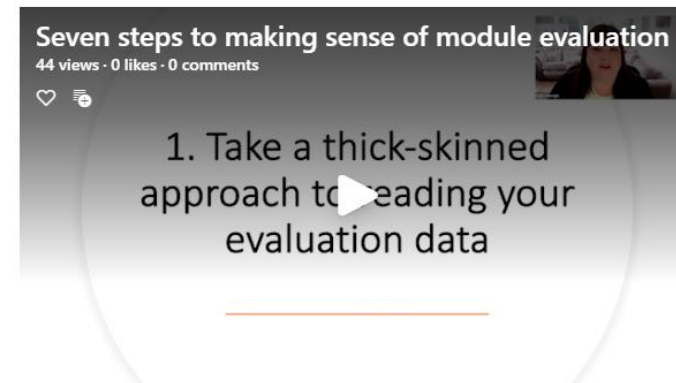

## Module Evaluation at Strathclyde

At Strathclyde we have recently implemented a module evaluation system and the first point to note is that the purpose of this system at Strathclyde is for enhancement. Student evaluation data is not perfect, but it does provide important information and insights that you can use to improve your class and your learning and teaching practice.

The [Strathclyde Student Module Evaluation Policy](#) describes the roles and responsibilities of all staff involved in this process.

I've been reflecting on how as teachers we make sense of class evaluations and in this video I would like to share my thoughts on 'Seven steps to making sense of class evaluation data'.

These steps are,

# Seven steps

Student evaluation data is not perfect, but it does provide important information and insights that you can use to improve your class and your learning and teaching practice.

## Seven steps to making sense of class evaluation data

- Take a thick-skinned approach to reading your evaluation data
- Look for general trends and themes in the evaluation data
- Reflect honestly on your evaluation report
- Choose one or two things to improve on in your next delivery of the class
- If you need help, know where to go
- Let students know that you value their feedback
- Gather interim feedback on how your changes are going

# REFLECTIONS AND NEXT STEPS

## Embedding

**Process**

**Development materials**

**Support cycle for each year**

## Maintaining Momentum

**Frequent changes of roles and responsibilities**

**Flexibility / agility**

## Continued Engagement

**Continued feedback from staff and students**
